

FORESTER

Activity Badge Scoreboard

2003 Webelos book pp 260—277

Do <i>FIVE</i> of these:									
1— Make a map of the United States. Show types of forests in different parts of the country. Name some trees growing there.									
2— Draw a picture to show the plant and tree layers of a forest in your area (or an area with forest). Label the different layers.									
3— Identify six forest trees common to the area where you live. Tell how both wildlife and humans use them. (If you don't live in a region that has forests, read about one type of forest and name six of its trees and their uses.)									
4— Identify six forest plants (other than trees) that are useful to wildlife. Tell which animals use them and for what purposes.									
5— Draw a picture showing how water and minerals in the soil help a tree grow, and how the tree uses sunlight to help it grow									
6— Make poster showing tree growth rings or examine growth rings of a tree stump. Explain how the rings tell its life history									
7— Collect pieces of 3 kinds of wood used for building houses. Tell what they are and one place each of them might be used									
8— Plant 20 forest tree seedlings. Tell how you planted them and what you did to take care of them after planting									
9— Describe both the benefits and the harm wildfires can cause in a forest ecosystem. Tell how you can prevent wildfire.									
10— Draw your own urban forestry plan for adding trees to a street, yard, or park near your home. Show what types of trees.									
<i>Completed all requirements</i>
