**SCOUTING  
CHANGES LIVES**

## Everyone is needed...

Grab your hammer and head to camp, we need **YOUR** help! Each of your camps holds a work weekend or a work day during the spring that is vital to our ability to open camp. We will be building new, repairing old, and just making sure that everything is ready to go. We provide the food for the weekend or day. The need is real; so make plans now to help get a camp ready for Scouting to come to life. Do you have special skills? Let us know so we can plan on using you to your (and your camp's) best use.

## What you need to bring!

Personal gear for overnight camping on work weekends: work gloves, tools to help with projects (if you have them) and an appetite for good food and fellowship.

## General needs

Enthusiasm and energy are the main requirements! We have projects for all skill levels, but special skills and tools are needed for specific projects.

### No signups are necessary!

Just show up at the camp.

## Hoedag Awards are back!

You're putting in lots of hours helping to improve and maintain camp properties, and we'd like to recognize your efforts with a nice pin for your uniform. The **Hoedag** is a hoe-like tool with an elongated blade used for planting trees, a common tool in early Northwest forests. For Scouters today, it symbolizes service to forest and recreation areas.

**The Success of your camps is a direct result of your efforts...thank you for everything you do to make your camp program the best in the nation.**

## ADOPT-A-PROJECT

It is easy for a unit to get involved and adopt-a-project. Check the council website for a list of available projects. Once a unit has a project in mind, contact the ranger and offer to help.
